# Table of Contents

<b>The BI Market Segment Guide .....</b>	<b>1</b>
<i>Contents.....</i>	<i>1</i>
<i>Introduction.....</i>	<i>1</i>
Selecting software.....	2
Document scope.....	2
<i>Standard reporting.....</i>	<i>3</i>
Standard reporting tools.....	3
Programmer's production environment.....	4
Technical GUI environment.....	4
End-user oriented reporting environments.....	5
<i>Ad hoc reporting.....</i>	<i>5</i>
Dashboards.....	6
<i>Analysis.....</i>	<i>7</i>
Systems with integrated front and back ends .....	9
Systems using a common metadata layer.....	9
Basic OLAP analysis .....	9
Visual analysis .....	10
Pre-defined analytical applications.....	10
Set-based analysis.....	11
Data mining.....	12
<i>Planning and performance management.....</i>	<i>13</i>
Types of planning tool.....	14
Other performance management tools.....	14
<b>First steps in software selection .....</b>	<b>15</b>
<i>Introduction.....</i>	<i>16</i>
<i>Software selection processes.....</i>	<i>16</i>
<i>Selection project challenges .....</i>	<i>16</i>
<i>Project team .....</i>	<i>17</i>
<i>The importance of careful selection.....</i>	<i>18</i>
<i>The value of a short list.....</i>	<i>19</i>
<i>Analyzing the market.....</i>	<i>20</i>
<i>Conclusion .....</i>	<i>20</i>
<b>Assessing needs for a business intelligence project .....</b>	<b>21</b>
<i>Introduction.....</i>	<i>21</i>
<i>Assessing needs.....</i>	<i>21</i>
<i>Business-driven product selection .....</i>	<i>22</i>
<i>Identifying requirements .....</i>	<i>22</i>
<i>Setting goals.....</i>	<i>22</i>
<i>Defining the project scope.....</i>	<i>24</i>
<i>Identifying Criteria.....</i>	<i>24</i>
<i>Setting priorities.....</i>	<i>24</i>
<i>Conclusion .....</i>	<i>25</i>
<b>Evaluating and Selecting BI Software.....</b>	<b>25</b>
<i>Introduction.....</i>	<i>26</i>
<i>How to watch a product demo .....</i>	<i>26</i>
<i>How to work with weighted criteria.....</i>	<i>27</i>
<i>The proof of concept .....</i>	<i>27</i>
<i>Evaluating performance .....</i>	<i>28</i>
<i>Calculating costs.....</i>	<i>28</i>

<i>Conclusion</i> .....	29
<b>The BI Verdict Factbase</b> .....	<b>29</b>
<i>About the Factbase</i> .....	30
<b>Vendor Portfolio Guide: SAP BusinessObjects</b> .....	<b>30</b>
<i>Merging SAP and Business Objects</i> .....	31
<i>Suite Overview</i> .....	32
<i>Data management</i> .....	33
Data integration .....	33
Other data management tools .....	33
Preconfigured data models .....	34
<i>Data storage</i> .....	34
<i>Columnar databases</i> .....	35
High Performance Analytic Appliance (HANA) .....	35
BWA .....	36
Sybase IQ .....	36
<i>Relational databases</i> .....	36
<i>Application servers</i> .....	37
SAP BW .....	37
SAP NetWeaver Application Server .....	37
<i>BI tools</i> .....	37
Formatted reporting .....	38
Ad hoc reporting .....	38
Query and analysis .....	39
Web-based analysis .....	39
Excel-based analysis .....	39
Explorer .....	39
Web Application Designer .....	39
Visualization and dashboards .....	40
Advanced Analytics .....	40
<i>Performance Management tools</i> .....	40
Planning .....	40
Legal consolidation and statutory reporting .....	41
Other performance management tools .....	41
<i>Conclusion</i> .....	41
<b>Vendor Portfolio Guide: Oracle</b> .....	<b>41</b>
<i>Overview</i> .....	42
Standard Edition and Enterprise Edition .....	42
<i>Front-ends</i> .....	43
The former Hyperion reporting tools .....	43
Hyperion Foundation Services .....	43
Hyperion components in OBIEE+ .....	44
SQR Production Reporting .....	44
Hyperion Interactive Reporting .....	45
Hyperion Financial Reporting .....	45
Hyperion Web Analysis .....	45
Siebel Analytics – the heart of OBIEE+ .....	45
<i>Oracle BI Applications</i> .....	46
<i>OLAP servers</i> .....	46
BI Server .....	47
OLAP Option .....	47
Essbase .....	47
<i>Planning and Financial tools</i> .....	48

Hyperion Master Data Management.....	49
Conclusions.....	49
<b>Vendor Portfolio Guide: SAS.....</b>	<b>50</b>
<i>Introduction.....</i>	51
<i>Business Analytics.....</i>	51
<i>Solutions.....</i>	52
<i>Data Management.....</i>	52
<b>Vendor Portfolio Guide: IBM Cognos.....</b>	<b>53</b>
<i>Contents.....</i>	54
<i>Introduction.....</i>	54
<i>Cognos studios.....</i>	54
<i>IBM Cognos Express.....</i>	55
<i>Planning.....</i>	56
<i>SPSS.....</i>	56
<i>Cognos PowerPlay.....</i>	57
<i>IBM Cognos Analytic Applications.....</i>	57
Looking ahead – Cognos 9.....	58
Conclusions.....	58
<b>Vendor Portfolio Guide: Microsoft.....</b>	<b>59</b>
<i>The Demise of PerformancePoint Server.....</i>	60
Consequences.....	60
SharePoint as a BI tool.....	60
Fewer features.....	61
No high-end business intelligence.....	61
Fragmentation.....	61
<i>Microsoft’s business intelligence portfolio.....</i>	61
<i>No clear roadmap for integration.....</i>	62
Conclusion.....	63
